## SAYS TREATMENT IS REMARKABLE

Captain F. S. Patty, Ex-Passenger Agent Northern Pacific, Discusses Former Troubles.

Nearly everybody in Knoxville, Tennessee, especially railroad people, know Captain F. S. Patty, for twelve years district passenger agent for the Northern Pacific railroad, with local offices in Chattanooga, and general offices at St. Paul, Minn.

On account of generally failing health Capt. Patty was forced to discontinue active work and for the past few years has been making his home in Knoxville, where he numbers his friends by his acquaintances. He is a kind, genial gentleman of the old school and is beloved by all who know him. The following interesting statement was made by him in person to the Tanlac representative:

"I am 69 years old and always enjoyed good health up to about six years ago, when I suffered a nervous breakdown and my general health gradually failed me. My principal trouble was indigestion and catarrh, but my whole system seemed to be out of shape. My condition finally got so bad I could not sleep at night and always after eating I would suffer so from indigestion and heart-burn that I felt just like there was a coal of fire in my stomach. My hearing and vision were also affected. I consulted several doctors here in Knoxville and other cities and they helped me considerably and I finally got so I could go around; but somehow I just couldn't feel right and could not sleep at night, which made me awfully nervous and nothing I would eat seemed to agree with me.

"I began reading about this Tanlac when you first came here, but did not decide to try the medicine until I talked with a friend of mine who had actually used it. He said it was the best thing he had ever taken, and that was sufficient proof for me.

"I have just finished the first bottle and came here this morning, not only to buy a second bottle, but to tell you just what it has done for me. I began enjoying my meals from the first few drops. My nervousness is gone and I can sleep like a child, and always wake up in the morning ready for breakfast and feeling refreshed. I am very fond of onions, but was almost afraid to eat them, because they always disagreed with me so; I could taste them for hours afterwards. I ate one for dinner the other day and it agreed with me perfectly and I felt no bad after effects whatsoever. I tell you I am beginning to feel like a different man and am always going to keep this Tanlac on hand. It has done me more good than anything else in the medicine line I have ever taken. I certainly do recommend it to my friends. It is really remarkable."

## THE PRESIDENT AND THE CHANCELLOR

President Wilson in his address to Congress on February 11th, said:

"The method the German chancellor proposes is the method of the Congress of Vienna. We can not and will not return to that. Is it possible that Count Von Hertling does not see that, does not grasp it, is in fact living in his thought in a world dead and gone?"

Count Von Hertling in his address to the Reichstag on February 26 reports as follows:

President Wilson, who reproaches the German chancellor with a certain amount of backwardness seems to me in his view of ideas to have hurried far in advance of existing realities.

These two quotations illustrate the difference between the American and the German standpoint.

America does demand something beyond the existing realities that Germany has created—demands a better day, the observance of the rules of civilization, an honorable rule of national conduct, freedom and justice to small nations, to all peoples, which do not exist today because of German kultur.

Germany insists upon a return to and perpetuation of fraud and tyranny and ruthlessness, a disregard of justice to small nations, indeed to all nations and peoples, a conscienceless rule of international conduct. These things may not yet be "dead and gone" but they will be "dead and gone" when this war is ended.

The difference between the two positions is the difference between a future safe and free and just, and a past cruel, unjust, treacherous and tyrannous, the difference between American ideals and German kultur and atrocities.
